SUMMARY

Driven 2nd-year B.Sc. Computer Science student skilled in Data Structures & Algorithms and Core Java. Passionate about developing scalable web applications with the MERN Stack and currently working on AI-integrated healthcare solutions while mastering System Design. Seeking internships to contribute to product development and tackle engineering challenges.

TECHNICAL SKILLS

- **Languages:** Java (Core & Advanced), JavaScript (ES6+), SQL, Python (Basics).
- **Web Technologies:** React.js, Node.js, Express.js, MongoDB, HTML5, CSS3, Tailwind CSS.
- **Core Computer Science:** Data Structures & Algorithms, OOPs, DBMS, Operating Systems, Computer Networks.
- **Tools & DevOps:** Git, GitHub, VS Code, Postman, IntelliJ IDEA.
- **Currently Mastering:** Spring Boot, Microservices Architecture, Low-Level System Design.

PROJECTS

- MediFlow SmartPad | AI-Powered Healthcare Assistant (Ongoing)

  Tech Stack: MERN Stack (MongoDB, Express, React, Node.js), Java (Logic), AI Integration.

  Description:
  - Developing an intelligent clinical prescription system to minimize medical errors by analyzing drug interactions in real-time.
  - Implementing JWT (JSON Web Token) based secure authentication for doctor and patient data privacy.
  - Designing a responsive dashboard to visualize patient history and prescription safety scores.
- AlumniConnect | Full-Stack Networking Platform

  Tech Stack: MERN Stack, Redux Toolkit, RESTful APIs.

  Description:
  - Engineered a scalable platform connecting students and alumni, facilitating mentorship and job referrals.
  - Built secure RESTful APIs for user management and post creation.
  - Implemented Redux Toolkit for efficient state management across the application.

PROFESSIONAL EXPERIENCE

Web Developer Intern | KG GL Labs (July 2024 – Oct 2024)

- Performance Optimization: Engineered a dynamic blogging platform using WordPress, optimizing image loading and caching strategies to improve page load speed by 20%.
- E-Commerce Development: Developed a B2B e-commerce solution with secure payment gateway integration and streamlined order management workflows.
- UI/UX Implementation: Customized frontend themes using HTML, CSS, and JavaScript to ensure mobile responsiveness and brand consistency across devices.

EDUCATION

Bachelor of Science in Computer Science | KG College of Arts and Science, Coimbatore

- Duration: 2024 – 2027
- CGPA: 8.35 / 10.0 (Current)

CERTIFICATIONS & ACHIEVEMENTS

- Cloud Computing: NPTEL Google Cloud Computing Foundations (Elite + Silver).
- Problem Solving: Solved 50+ algorithmic problems on LeetCode
